

PRECISION ABRASIVE WATERJET ACCESSORIES

OMAX® Laser Feature Finder Kit

Perform simple dry runs with this laser attached to the nozzle before you cut parts on valuable stock.

Get a rough visual reference of where your jet stream will begin cutting by locating material features without special software. The accessory projects a laser dot within ± 0.020 " of the area you plan to cut. The laser also gives you the capability to easily locate features when your material is positioned at an angle.

Laser Feature Finder

Accessory Specifications

Laser Feature Finder

Standard Features

- Easily attachable to all OMAX JetMachining® Centers
- Includes a polarized lens to adjust the diameter of the laser dot to focus on any size material feature
- With its simple design, the accessory operates on three A76 batteries, eliminating wiring or cabling

Benefits

- Easy to use
- Assists in finding tiny details on your material stock
- Promotes the ability to get the best yield out of materials

Note: This accessory is not for use during cutting operations. It does not replace the Precision Optical Locator.

About OMAX

OMAX has the industry leading patented abrasivejet controller with a built-in expert system. Our exclusive "Compute First-Move Later" motion control system automates most programming and tool setup work, virtually eliminating the need for extensive operator training. Plus, with free OMAX Intelli-MAX® Software upgrades for the life of the machine and our ongoing commitment to advance the efficiency of our technology and software, OMAX saves you time and money.

WORK SMART

The OMAX Technology Guarantee entitles you, as the original owner, to free OMAX software upgrades for the life of the machine.
